

UNILUX

POPY

POPY is a modern and functional lamp that offers variable brightness and color temperature, ideal for creating different atmospheres with its intuitive touch base, compact design featuring flexible arms and head, USB-powered convenience, and stability ensured by a sturdy glass base.

POPY black

UNILUX

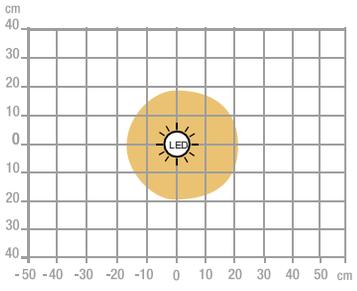

- **Variation in light intensity and color temperature:** change the lighting ambiance in an instant with POPY. A simple touch on its touch-sensitive base allows you to adjust between 3 levels of color temperature, while continuous pressure adjusts the light intensity.
- **Functional:** practical, its flexible arm and head make it ultra-compact, perfect to accompany you on travels or in meetings.
- **USB port:** plug it directly into a USB port for easy use.
- **Design:** the combination of glass and aluminum will bring a touch of elegance to your workspace.
- **Night light mode:** use its soft light as a night light for a cozy ambiance.
- **Stability:** its weighted and sturdy glass base, 0.8 cm thick, ensures perfect stability of the lamp wherever you place it.

Warranty: 2 years
 Max height: 38 cm / minimum height: 25 cm
 Materials: glass base/arm and aluminum head

ENVIRONMENT

UNILUX focuses on sustainable development and takes concrete measures to reduce its environmental footprint and best meet the evolving expectations of its consumers.

We are notably committed to reduce our greenhouse gas emissions by 29% between 2021 and 2030 in response to the "Net Zero Carbon Emissions by 2050" challenge. Eco-design, emissions reduction and continuous improvement are at the core of our concerns.

OUR EXPERTISE

Task lighting

In the office, we are often exposed to constant artificial lighting. Poor lighting quality can lead to headaches, sleep disturbances, and decreased concentration. According to a recent study, only 34% of workspaces achieve the recommended illuminance level of 500 lux by Occupational Medicine, in accordance with DIN EN 12464-1* standard. Task lighting is frequently used to provide additional brightness when the primary lighting is insufficient.

* Standard setting the limits that workplace lighting must adhere to.

Our tips to light up your workspace :

- Position your desk near windows to benefit from natural daylight and reduce eye fatigue.
- Ensure that the lamp head is positioned at least 35 cm above the work surface.
- Place the lamp on the opposite side of the hand that holds the mouse or writes.
- Position the lamp for easy adjustment.
- Ensure that your lamp is placed to avoid glare on screens and prevent direct glare in your field of vision.

ABOUT UNILUX

Founded in 1952, UNILUX is a French company specializing in lighting and ergonomics. Over the past 25 years, UNILUX has become a benchmark in the field of lighting in France and throughout Europe. In 2000, UNILUX joined the French group HAMELIN, a European leader in stationery. The company modernizes and evolves to become a creator of ambiance and well-being.
