

Instrucțiuni de asamblare

Componente incluse

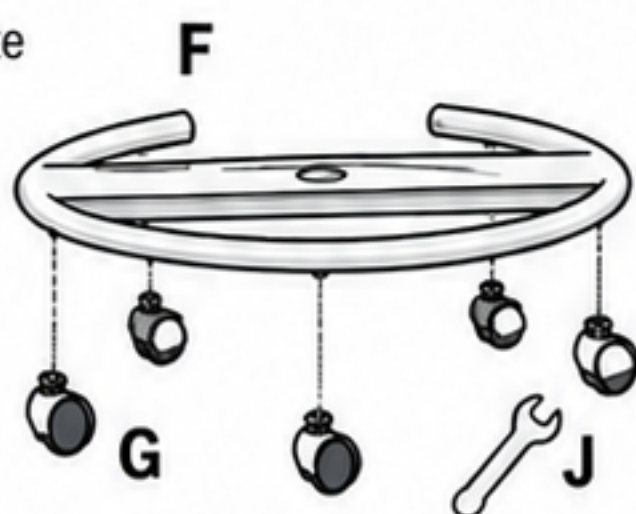

- A: Tabla
- B: Partea superioara reglabila a tijei
- C: Partea inferioara a tijei
- D: Buton de reglare
- E: Tavita markere
- F: Baza rotunda
- G: Roti pivotante cu frana
- H: Garnitura
- I: Surub M8
- J: Cheie fixa

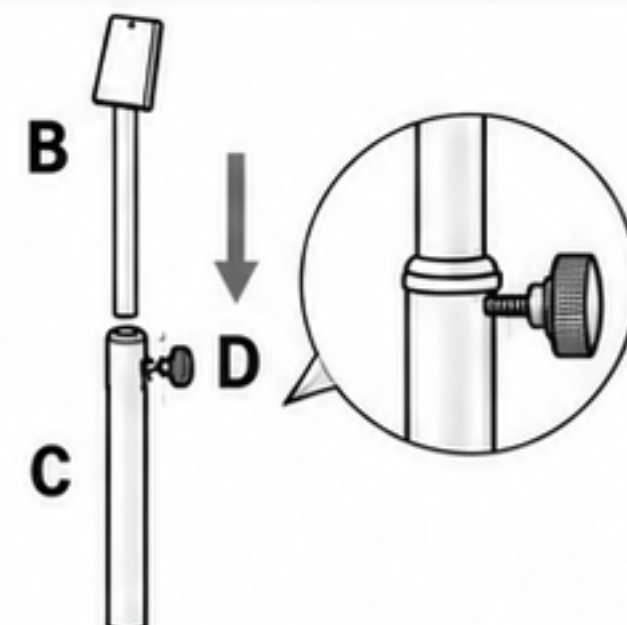

1 Montarea rotilor

Insurubati cele cinci roti pivotante cu frana (G) in picioarele bazei rotunde (F) si strangeti-le cu ajutorul cheii fixe (J) furnizate. Acordati atentie pozitiei rotilor.

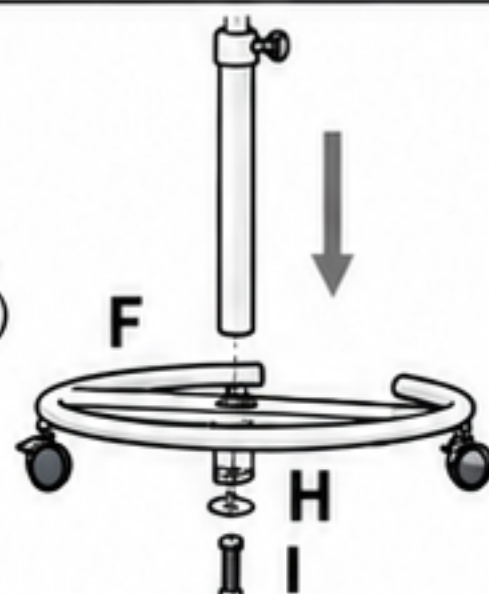

2 Asamblarea tijei

Introduceti partea superioara reglabila a tijei (B) in partea inferioara a tijei (C), apoi strangeti surubul si butonul de reglare (D).

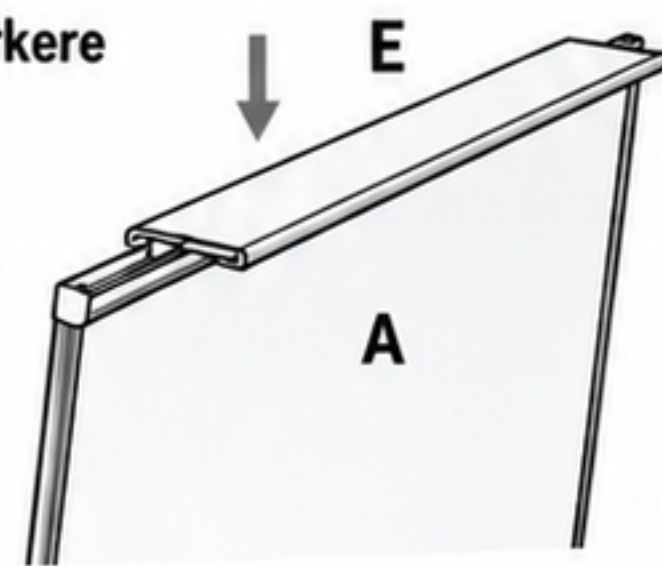

3 Fixarea tijei pe baza

Introduceti tija dreapta asamblata in baza rotunda (F), orientata in jos, si fixati-o cu ajutorul garniturilor (H) si al suruburilor M8 (I).

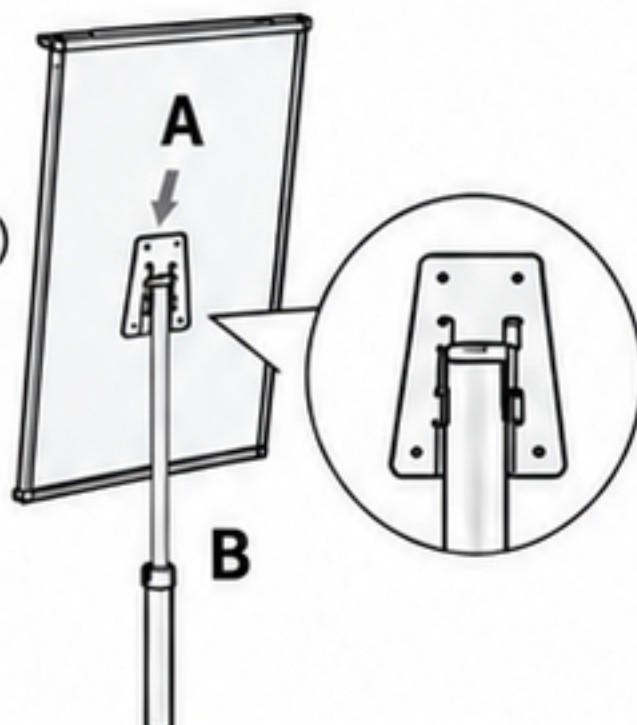

4 Montarea tavitei markere

Instalati tavita markere (E) in partea inferioara a tablei (A).

5 Fixarea tablei

Asamblati placa metalica trapezoidala de pe spatele tablei (A) cu placa metalica aflata in partea superioara a tijei drepte.

6 Asamblarea este finalizata

Reamintire: Inaltimea poate fi ajustata prin rotirea butonului de reglare de pe tija verticala.
